

Arizona

Arizona General Comments:

- Realigns a lower threshold mobilization site to an existing large capacity site and enables the transformation into a Joint Pre-Deployment / Mobilization Platform at Ft Bliss
- Supports the migration of the remaining Service Consumable Items to the oversight and management of a single DoD agency
- Closing RC facilities is offset by the construction of modern AFRCs that will be the right size and design to support units that will be stationed there. Transforming RC facilities will improve training, readiness and quality of life for more than 1570 RC soldiers, full-time unit support personnel, and their families.
